## THE LAUTERSTEIN-CONWAY MASSAGE SCHOOL & CLINIC

### COVID-19 Internship Modifications

The following are the student's modified procedures for the make-up room. Please review carefully as failure to comply with the following may result in disciplinary action, up to and including dismissal.

**Note:** For the safety of fellow students, faculty, staff, and clients, it is vital important that those who suspect that they or someone in their bubble has been exposed to COVID-19 that they inform TLC, get tested, and self-quarantine (**bubble refers to a person or people with which one is in frequent, close contact, often unmasked.**). Failure to comply with TLC's COVID-19 policies and procedures may result in disciplinary action, up to and including dismissal.

#### Exposure/Contraction Procedures

If you have or suspect that you or someone in your bubble has been exposed to COVID-19, please do not come on school grounds. Symptoms you should check for include: fever (99.6+), chills, shortness of breath, difficulty breathing, new loss of sense of smell or taste, muscle or body aches, sore throat. If you believe you have been exposed or are experiencing any of the above symptoms contact the Director at [markd@tlcschool.com](mailto:markd@tlcschool.com) to schedule a phone call. Refer to the Covid contraction procedures for more information.

Students with real or suspected illness that are scheduled for clinic, **must** contact the MTI-on-Duty at 512.374.9222, ext. 30 immediately. The MTI-on-Duty will cancel all appointments at no cost or penalty to the student.

Students should dress in accordance with the dress code detailed in the Internship Handbook. In addition, please wear hair up and away from your face.

Students should bring their supplies. All other personal belongings must remain in their vehicles with the exception of phones (powered down). These will need to be disinfected upon arrival. **PLEASE NOTE** - the student lounge is no longer available for storage, meal prep, or in-room dining; neither are the benches and tables outside. **Please do not gather in these areas.** The refrigerator, microwaves & toaster ovens are also no longer available for use. Please do not bring any food items or drinks other than water into the building. All breaks and food consumption should be done outside or in your car until further notice.

Upon arrival, the clinic's MTI-on-duty will take student's temperature. Students presenting with a fever (99.6 degrees or more), will be sent home. Their appointments will be canceled or reassigned to another therapist. Students sent home should contact follow the contraction procedures listed above.

Students will disinfect all contents/equipment in their bay prior to the start of their session. This includes: table, table legs, height adjustment knobs and any smooth surfaces, clipboards, pens. This is regardless of if they are following a student who has just completed their post-session clean-up. After disinfecting the bay, students follow the hand-washing protocol.

During times of high infection rates masks must be worn. As you enter the building, you will find masks available. If you do not have your own mask, please put one of these masks on. Students and clients will be expected to wear masks **at all times** while in the building (No Exceptions). *Bandannas, gators, and scarves are not acceptable.* Students and clients must wear appropriate masks or forfeit their appointment.

When greeting clients, students should not shake hands or hug. Bowing is certainly respectful and appropriate. Consider reminding them that you'll minimize conversation to what is necessary in-session.

Students will use a no-contact thermometer to take the client's temperature upon arrival; ask the client to reschedule if their temperature is 99.6°F or higher. Students will then initiate COVID-19 screening checklist questions on the supplemental intake form.

During times of high infection rates masks are to be worn by the therapist when performing massage particularly Facial massage.

During times of high infection rates everyone must wear masks. Some clients may be unable to comfortably wear a face covering during face-down positioning. Consider the following alternative: use side-lying positioning to address the lateral and posterior aspects of the body so the client can remain masked.

interns are not to bring the post-session water to clients.

After the session, remove all linens, blankets, and table setups; fold items in on themselves (do not shake) before stowing to take home. Students will disinfect all contents/equipment in their bay prior to the start of their next session. This includes table, table legs, height adjustment knobs and any smooth surfaces, clipboards, pens. Repeat handwashing protocol.
